To Whom It May Concern:

I'll never forget when I had Bob speak at my event at the Stanley Hotel. Night one, everyone investigated with a total fear or Ouija boards. By night two, after they had heard Bob's lecture, they were all clamoring to give them a try. Bob speaks with a real passion and knowledge of the subject, but also gives a humorous spin on the pop culture of this "terrible" board sold in toy stores everywhere. I can't recommend him enough as a lecturer, but he also happens to be just an all around great guy.
