To Whom It May Concern:

I am the Executive Producer for Exorcism Live! for Destination America. We invited Bob Murch to take part in a live séance performed at the Exorcist house in St. Louis. He was brought on as a spirit board expert and historian.

Murch was a true pro in every sense of the word. Not only was his knowledge of the subject valuable to the program, but he was completely at ease and extremely engaging in front of the live cameras. Additionally, his professionalism on set and with the producers and crew made him a joy to work with. I'm hoping this isn't the last time I get to work with Murch and I would highly recommend him to anyone who is in need of some fascinating history and knowledge about Ouija and spirit boards.

Sincerely,
